Leo Laporte is TV and radio's most recognized and prolific technology personality, best known for his humor, wit and ability to teach both newcomers and grizzled PC veterans. In Leo Laporte's 2006 Technology Almanac, Leo provides a year's worth of

anecdotes, tips, factoids, and musings about the machines at the center of your life. A page is devoted to each day of the year, and each page includes several elements: typically a single-topic essay that takes up most of the page (on subjects as varied as ergonomics, Easter eggs in popular programs, processor overclocking, and discount-travel Web sites), and hints, tips, references to worthwhile software, and goofy trivia.
