How do you improve a perennial bestseller? We've added 10, 000 more names and many more lists to make 45, 000 Baby Names more appealing than even its million-copy selling predecessor, 35, 000 Baby Names. 45, 000 Baby Names now has a broader, better selection of popular and unusual names from over 160 languages all over the world. The list is complete with origin, meaning, and famous namesakes. This book gets right to the point with 10 guidelines for naming a baby plus space to list and rate a couple's top choices.
