With language as dazzling as the wondrous visionary landscapes they evoke, these seventeen works transport the reader to worlds in which sleep is illegal, the lives of lonely department store clerks are transformed by fairies, the rich wear coal jewelry on an island of diamonds, and the living laminate their dead. Here is a universe where rooms go missing, women give birth to their lovers, and the young contemplate God's creative powers through pet tortoises.

I can understand why I loved "Newton" so much at 18... the rest of the short stories

would've been my favorites as well, but now they are a bit too... adolescent? Some are still really good though (especially good for quoting)

The chinese version is already published in September this year, translated by 17 different female writers.

读来又开心又难过。

灶台和寻梦者之间的距离

You just have to read Orion.

Winterson是最会运用通感的人。这本书是我读过的最丰富的短篇集。像被水晶球女巫炼金术师魔术师团团围住，应接不暇的精彩和深刻。
