"A well-researched, ambitious book...it documents previously undocumented patterns of women's migration historically and across nations. It is a tour de force and indispensable reading for all interested in gender and migration." SUSAN ECKSTEIN, Professor of Sociology and International Relations, Boston University

"...This path-breaking study rejects the simplistic notion of the 'feminization of migration,' and fundamentally rethinks the role of men and women in human migrations in the past 500 years..." LEO LUCASSEN, Director of Research, International Institute of Social History, Amsterdam
