For over two decades, HEART & HANDS has been a beloved guide for both midwives and parents interested in the benefits of midwifery care. This all-new fourth edition has been revised from start to finish, featuring updated material that emphasizes independent midwifery, physiologic (natural) birth, and the art of nonintervention. Midwifery expert Elizabeth Davis includes valuable hints for turning breech and posterior babies, mediating pain in labor, and supporting newborn physiology. Davis also reveals the keys to postpartum recovery, with practical tips on breastfeeding for busy mothers. Comprehensive and compassionate, HEART & HANDS remains a dog-eared classic for parents, midwives, and other birthing helpers.
