Political institutions are the main subject of political theory—or they ought to be. Making the case with his trademark forcefulness and intellectual aplomb, Jeremy Waldron argues in favor of reorienting the theory of politics toward the institutions and institutional principles of modern democracy and the mechanisms through which democratic ideals are achieved.

Too many political theorists are preoccupied with analyzing the nature and importance of justice, liberty, and equality, at the cost of ignoring the governmental institutions needed to achieve them. By contrast, political scientists have kept institutions in view, but they deploy a meager set of value-conceptions in evaluating them. Reflecting on an array of issues about constitutional structure, Waldron considers the uses and abuses of diverse institutions and traditions, from separation of powers and bicameralism to judicial review of legislation, the principle of loyal opposition, the nature of representation, political accountability, and the rule of law. He refines his well-known argument about the undemocratic character of judicial review, providing a capacious perspective on the proper role of courts in a constitutional democracy, and he offers an illuminating critique of the contrasting political philosophies of Hannah Arendt and Isaiah Berlin.

Even if political theorists remain fixated on expounding the philosophical foundations of democracy, they need to complement their work with a firmer grasp of the structures through which democracy is realized. This is what political theory means: theory addressing itself to the way political institutions frame political disagreements and orchestrate resolutions to our disputes over social ideals.

作者介绍:

Jeremy Waldron is University Professor in the School of Law at New York University.

目录: Preface

1. Political Political Theory
2. Constitutionalism: A Skeptical View
3. Separation of Powers and the Rule of Law
4. Bicameralism and the Separation of Powers
5. The Principle of Loyal Opposition
6. Representative Lawmaking
7. Principles of Legislation
8. Accountability and Insolence
9. The Core of the Case against Judicial Review
10. Five to Four: Why Do Bare Majorities Rule on Courts?
11. Isaiah Berlin's Neglect of Enlightenment Constitutionalism
12. The Constitutional Politics of Hannah Arendt

## 评论

对于政治制度的哲学反思，这是一个被当今政治哲学界忽略了的重要领域

-----  
"political" political theory的意思是，让我们关注political institution吧，让我们高扬legislature supremacy吧。
