<p>By early childhood, Annie Revels had everyone's role in life figured out but her own. She understood that her mother was ill and needed to be taken care of. That her father was a waterman, a life she envied. And she understood that her little sister, Rebecca, was unabashedly beautiful. And she was not.

When Annie's father suddenly dies, no one questions which sister will take his place aboard the family oyster boat. And for the first time, Annie falls comfortably and easily into the only place in life she thought she could ever fit in-as a waterwoman.

And then she meets Nathan...

"Sensuous [and] funny...Hart's flavorful dialect, her knowledge of working the water, and her understanding of the complexity of relationships-particularly the ones between sisters-are masterful." (Sheri Reynolds, author of The Rapture of Canaan)</p>
