isbn:9781879960558

Writing on the broad canvas of recent Chinese history, Yan Geling offers us sharply moving, intimate portraits of women and men who experienced that history in the most deeply felt ways: as lovers, as artists, as friends. Set in China, Tibet, and in the U.S., these stories -- sensual, visual, compelling -- offer U.S. readers a more textured understanding of life in the People's Republic of China than we usually get.
