I should have asked the question "How could someone who was missing be in two places at once?" Instead, I asked the wrong question -- four wrong questions, more or less. This is the account of the second.

In the fading town of Stain'd-by-the-Sea, young apprentice Lemony Snicket has a new case to solve when he and his chaperone are hired to find a missing girl. Is the girl a runaway? Or was she kidnapped? Was she seen last at the grocery store? Or could she

have stopped at the diner? Is it really any of your business? These are All The Wrong Questions.

作者介绍:

Lemony Snicket was once referred to as a missing person by someone who knew where he was all along. He is also referred to as the author of the thirteen volumes in A Series of Unfortunate Events, and "Who Could That Be at This Hour?" the first in a four book series collectively known as All The Wrong Questions.
