Liv Kellerman has left her cheating husband-and more tragically, their fabulous duplex with Empire State Building views. Now she's contemplating her next move. With few marketable skills, a lot of appeal, and more than a little attitude, she can go farther than she ever thought possible.

"Wicked and witty...will have you rolling on the floor." ( Cosmopolitan )

"Addictive and captivating." ( Time Out New York )

"Hugely funny." ( New York Daily News )

"Irresistible. A book I certainly wouldn't kick off my beach blanket." ( Newsday )

"Outrageous, hilarious...a wicked and twisted coming-of-age-in-the-city story, an uproariously funny tale...and a scathing parody of the narcissism of New York living." ( Tampa Tribune )
