The Bifrost Guardians is the bold and original five-book series that launched the career of Mickey Zucker Reichert. This epic saga of an American soldier sent from Vietnam through time and space to a battlefield where the weapons are not bullets and grenades, but swords and spells, is now reintroduced to readers through Daw's new omnibus collections.

In this second volume, which includes books four and five in the series, the forces of Chaos are unleashed-in a strangely altered, modern-day America.

Praise for The Bifrost Guardian series:

"Refreshingly daring...funny, touching, sad, impelling, and ultimately satisfying...I hope it marks a new trend in fantasy."- Thrust "Ms. Reichert has a master's touch for provoking curiosity and for drawing dynamic characters...keep the reader turning the pages."- Rave Reviews

"Inventive, fertile imagination...appealing characters."- American Fantasy
