In the Morland Dynasty series, the majestic sweep of English history is richly and movingly portrayed through the fictional lives of the Morland family. It is 1820, and the landscape of England is undergoing sweeping change as the country pioneers the steam-driven machine age. In Manchester, Sophie and Jasper face violent opposition to their plans for rehousing factory hands; Lucy brings her sons home from their Grand Tour, brimming with ideas for their future; and Rosamund enters a bizarre agreement with her husband, with tragic consequences. And at Morland Place two brothers grow up with very different tastes and an unspoken rivalry.
