A Companion to Chinese History presents a collection of essays offering a

comprehensive overview of the latest intellectual developments in the study of China's history from the ancient past up until the present day.

Covers the major trends in the study of Chinese history from antiquity to the present day

Considers the latest scholarship of historians working in China and around the world

Explores a variety of long-range questions and themes which serves to bridge the conventional divide between China's traditional and modern eras

Addresses China's connections with other nations and regions and enables non-specialists to make comparisons with their own fields

Features discussion of traditional topics and chronological approaches as well as newer themes such as Chinese history in relation to sexuality, national identity, and the environment
