"Feels Real" board books for toddlers are filled with vivid color photos of friendly animals and the animals truly feel real. That's because every illustration has a texture patch that matches the pictured animal. These special textures feel like the fur or the skin of animals that little boys and girls like to pet or touch. All the animal photos in both delightful picture books seem to come to life when kids touch them and discover how they feel. "Colorful Animals" shows several especially colorful animals, including a parrot and a fox, among others. Toddlers will feel the textures of feathers, fur, and more.
