Baby crocodiles hitch a ride in mama's huge grin Baby spiders float and drift on the blowing wind. Here ten adorable animal babies are featured in fabulous, vivid wildlife photography, each with a unique way of traveling, either independently or with a little help from mom and dad And bouncing and trotting right alongside the elephants, penguins, and other animal friends are human babies and toddlers, sweetly depicted in spirited illustrations. Children will delight in this playful comparison of animals to humans About the Author and Illustrator Kathryn O. Galbraith lives in Tacoma, Washington, and is a frequent speaker at schools and conferences. She is also an instructor in the University of Washington's Extension Program, Writing for Children.
