This intriguing series takes readers up close and inside some of the scariest creatures ever with amazing "X-ray" pages that reveal the internal skeleton of each creature when held up to the light. Colorful illustrations "call out" each creature's unique features, and "Did You Know" questions introduce fascinating facts and explode common myths. Get an inside look (literally) at one of the scariest creatures on Earth. Special X-ray pages will captivate young readers as they get an inside and up close view of the skeleton, internal organs, and wings of a bat. Readers will enjoy beautiful illustrations and full-color photographs while discovering basic facts about bats, such as how bats use echolocation to hunt and what they eat. Includes a fun world map of where different bat species can be found.
