著者:Thomas, Margaret

出版者:School Specialty Pub

出版时间:2003-4

装帧:Pap

isbn:9780742417892

"Algebra II" links all the activities to the NCTM Standards and provides students with practice in the skill areas necessary to master the concepts presented in a second-level course in Algebra. Review concepts presented in beginning algebra plus exercises that

involve slope, intercepts, graphing linear inequalities, domain and range, graphing exponential functions, matrix operations, quadratic equations, trigonometry, radicals, roots, vectors and more. Within the skill-specific assignments, examples of solution methods are presented at the top of each page and puzzles and riddles gauge the success of concepts learned. The numbers of the related standards for each activity can be found in the table of contents. Answer key provided.
