In the town of Dusty Gulch, not much is fixing to happen. But then Zeb wishes up a horse. When he tells his ma, she thinks he's fibbing. He starts to say, "I wish you'd believe me," and a wild-eyed palomino appears in her boarding-house kitchen. It neighs and snorts, and tears the door off its hinges on its way out. In the wake of Zeb's wishes, horses take over the small town. A chestnut mare completely discombobulates Mrs. Vander Snooty as she steps off the stagecoach, and a pinto creates havoc in Mr.

Goody's General Store. But Zeb can't stop wishing. Will Zeb save the town from all these horse-wishes? Boldly and hilariously illustrated, When Wishes Were Horses will tickle the funny bone of every cowboy and cowgirl.
