This is the generation that will change China. The youth, over 320 million of them in their teens and twenties, more than the population of the USA. Born after Mao, with no memory of Tiananmen, they are destined to transform both their nation and the world.

These millennials, offspring of the one-child policy, face fierce competition to succeed. Pressure starts young, and their road isn't easy. Their stories are also like those of young people all over the world: moving out of home, starting a career, falling in love.

Wish Lanterns follows the lives of six young Chinese. Dahai is a military child and netizen; 'Fred' is a daughter of the Party. Lucifer is an aspiring superstar; Snail a country migrant addicted to online games. Xiaoxiao is a hipster from the freezing north; Mia a rebel from Xinjiang in the far west.

Alec Ash, a writer in Beijing of the same generation, has given us a vivid, gripping account of young China as it comes of age. Through individual stories, Wish Lanterns shows with empathy and insight the challenges and dreams that will define China's future global impact.

作者可以说是非常贪心了。大概适合介绍给 " 对中国一小撮年轻人的生活经历非常感兴趣的纯外国人 " 看。

书评

This book combines the stories of six Chinese, born across China in between 1985 to 1990, and follows them in their lives until 2015. At times, Ash's writing is incredibly sharp, but his style alternates as if the blend of six into one isn't a seamless one....
