Ned Mouse has been sent to jail. His crime was writing "The government is unfair to mice " in his spinach. But Ned can't stand the tiny cell, terrible food, and unstylish striped jumpsuits. So he begins to try to escape. He tries digging a tunnel, building a getaway plane, and finally taking a leap down the bathtub drain hole. Each time he's thwarted. The years pass, and Ned is near despair when he gets a letter from his long-lost friend Mort, who tempts him with visions of the sunrise by the sea. Filled with determination, he thinks of a new way to leave his old life behind. But can it work? Ned Mouse Breaks Away beautifully captures one mouse's cleverness and endurance in this charming tale written by a master of children's literature and featuring beautiful pen-and-wash illustrations.
