Discover what life is like on five different types of farms. Written from the perspective of young people, this series describes the experiences found living, working, and playing on a farm. So head out to the farm to understand how animals and plants grow, and how farm kids help make it all happen. Did you know that more people around the world drink goat milk than cow milk? Jimmy Search could have told you. He lives on a dairy goat farm and explains the work and fun that go into raising and milking goats.
