Discover what life is like on five different types of farms. Written from the perspective of young people, this series describes the experiences found living, working, and playing on a farm. So head out to the farm to understand how animals and plants grow, and how farm kids help make it all happen. How big can a pumpkin grow? When is the best time to plant corn? Melissa Lehman knows. She lives on a crop farm and tells readers about the fun, and work, that go into planting, growing, picking, and selling crops.
