Baby dogs are puppies and they belong to a litter, but what is a baby skunk called and what is the name of its family group? This clever, rhythmic story tells us just that. Counting from one to ten, familiar backyard animals are introduced by baby and family group name. Each stanza also tells a bit more about each animal by providing clues as to what they eat, how they sound or where they live. The "For Creative Minds" section includes more animal fun facts, information on keeping a nature journal and how to

watch for wildlife in your own backyard. All Sylvan Dell titles feature free educational resources at www.SylvanDellPublishing.com, including the "For Creative Minds" sections and additional teaching activities. The "For Creative Minds" section features the following activities: Animal counting and fun fact cards for memory game Animals all around you Caring for wildlife around you What to do if you find an injured animal
