The death of a grandparent is often a child's first encounter with grief. Why did this happen? How do I feel? Drawing on concepts from psychology and a broad perspective on Christian faith, Remembering My Grandparent provides a sensitive and practical resource that will help children ages 7-13 cope with the death of a loved one. Kids can write, draw, create, and express feelings via concrete, hands-on activities

including: becoming a Memory Detective to uncover clues to their grandparent's own childhood, recording favorite memories, photographs and recipes and turning Christmas, Easter and other holidays into times of special remembrance. Honest and gentle, this book will help kids?and their parents with them?understand difficult concepts and communicate tough feelings as they grow through their season of mourning.
