A powerful meditation on political resistance from one of the most original and influential thinkers of our times

From the War on Terror to resistance in Ramallah and traumatic dislocation in the Middle East, Berger explores the uses of art as an instrument of political resistance. Visceral and passionate, *Hold Everything Dear* is a profound meditation on the far extremes of human behaviour, and the underlying despair. Looking at Afghanistan, Palestine, and Iraq, he makes an impassioned attack on the poverty and loss of freedom at the heart of such unnecessary suffering. These essays offer reflections on the political at the core of artistic expression and even at the center of human existence itself.

Reread. One was born into this life to share the time that repeatedly exists between moments: the time of Becoming, before Becoming risks to confront one yet again with undefeated despair.
