For courses in graduate courses in instructional design, web-based design, and distance learning. Looking for an easy-to-read, practical book on web-based learning? Web-Based Learning: Design, Implementation, and Evaluation clearly instructs readers how to design effective Web courses, create a community of Web-based learners, and implement and evaluate Web-based instruction through an easy to follow ID framework. Case studies and discussion questions extend readers skills, inspire discussion, and encourage readers to explore the trends and issues related to Web-based instructional design and delivery.
