著者:Doeren, Jamie/ Roghair, Dennis

出版者:Independent Pub Group

出版时间:2005-9

装帧:Pap

isbn:9781565232532

Step-by-step instructions for creating four different eagle designs from a tree trunk or log are detailed in this chainsaw carving guide. The four projects include an eagle head plaque, a standing eagle with a fish, a soaring eagle, and an eagle bench. Each project

features a detailed sketch, instructions for carving step cuts, texturing, adding final details, and finishing options and techniques. An extensive gallery of finished pieces provides inspiration for novice chainsaw carvers and showcases the work of both authors. A great deal of space is dedicated to chainsaw safety, including tools, clothing, clamping, and work areas.
