Woodturning enthusiasts looking to advance their skills will delight in this collection of 50 challenging and diverse projects. Some of the featured designs include boxes: cylindrical, diabolo and clamshell; bowls: round-bottom, flared and winged; and

platters: minimalist, handled and roll-rimmed. Each project is accompanied by diagrams, wood and tool requirements, and even suggestions for alternative designs. Beginners who wish to build skill by approaching these projects at a simpler level will benefit from the thorough sections on safety, tools and equipment, finishing products and types of wood. More seasoned turners hoping to test their expertise might take the designs found here and create even bigger, more elaborate constructions.
