

50 Mathematical Puzzles and Problems

[50 Mathematical Puzzles and Problems 下载链接1](#)

著者:Cohen, Gilles 编

出版者:Springer Verlag

出版时间:

装帧:Pap

isbn:9781559535007

Red Collection The Red Collection (Grade 9-College) is the most challenging set, involving distance, vectors, transformations, systems of equations, series, powers, and number theory. Problems are solved with compass and straightedge constructions,

trigonometry, the Pythagorean theorem, synthetic division, and a great deal of ingenuity.
