The year is 1879, and Captain Simon Fonthill is ready for another challenge. Having survived the Zulu onslaught at Rorke's Drift, he is sent to the North-West Frontier - India's border with Afghanistan - and charged with a dangerous mission. Fonthill must infiltrate the warlike Pathan tribes and pass vital intelligence back to the British camp. He swiftly discovers a plot to massacre the regiments, but when his cover is blown, Fonthill steels himself for the harrowing consequences...
