出版时间:2005-8

装帧:Pap

isbn:9780240516660

Learn the key skills you need with this practical and inspirational guide to all the fundamental principles of animation. With extended pieces on timing, acting and technical aspects, Chris Webster has created the vital learning tool to help you get the most out of your animation and develop the practical skills needed by both professionals and serious students alike. The free CD-ROM includes more than 30 animations illustrating the techniques described throughout the book as well as examples of a professional production schedule, budget and production chart - everything you need to get started! With a foreword by Peter Lord, creative director and co-owner of Aardman Animations and an Introduction by Mike Milne, Director of the

award-winning animation house Computer Animation, Framestore CFC. You can improve your timing, performance and animation production skills with this practical guide to animation skills suitable for all disciplines. You can benefit from the skill and experience of a leading professional and educator with more than 20 years industry experience. You can understand and master action analysis, movement and timing with this beautifully illustrated guide.
