Our Mother is a comedy about growing up with a parent who has an anxiety disorder. Luke Howard mixes genres to tell an utterly open personal reflection about his

childhood and his relationship with his mother. Jumping between noir, giant robots, fantasy adventure, and even scientific animal research, Luke brings a very intimate story to life with humor and cartooning experimentation.

刚看了蓝色小药丸就看了这本书，一个关于HIV，一个关于焦虑症，并且都是作为他们的亲人的角度去叙述的，风格不一样。
