It's a scientific fact: Women rock!

A charmingly illustrated and educational book, New York Times best seller Women in Science highlights the contributions of fifty notable women to the fields of science, technology, engineering, and mathematics (STEM) from the ancient to the modern world. Full of striking, singular art, this fascinating collection also contains infographics about relevant topics such as lab equipment, rates of women currently working in STEM fields, and an illustrated scientific glossary. The trailblazing women profiled include well-known figures like primatologist Jane Goodall, as well as lesser-known pioneers such as Katherine Johnson, the African-American physicist and mathematician who calculated the trajectory of the 1969 Apollo 11 mission to the moon.

Women in Science celebrates the achievements of the intrepid women who have paved the way for the next generation of female engineers, biologists, mathematicians, doctors, astronauts, physicists, and more!

— BrainPickings - Best Science Books of the Year

作者介绍:

Rachel Ignotofsky grew up in New Jersey on a healthy diet of cartoons and pudding. She graduated with honors from Tyler School of Art's graphic design program in 2011. Now she lives in beautiful Kansas City, Missouri, where she spends all day drawing and learning as much as she can. She has a passion for taking dense information and making it fun and accessible and is dedicated to creating educational works of art.

Rachel is inspired by history and science and believes that illustration is a powerful tool that can make learning exciting. She uses her work to spread her message about education, scientific literacy, and powerful women. She hopes this book inspires girls and women to follow their passions and dreams.

This is Rachel's first book and she plans on writing many more in the future. To see more of Rachel's educational art and learn more about her, please visit www.rachelignotofskydesign.com.

评论

能够了解到更多的女性科学家（即使不懂葡萄牙语看图片也可以）。

因为插画真的好漂亮所以在图书馆路过它的时候没忍住借过来看了…是一本简略可爱的小科普。虽然有些囊括在里面的科学家我个人觉得有点凑数性质……

出现在封面上的女性科学家有： 1. 左上红色： Mary Anning 玛丽 · 安宁 古生物学家 2. 右上橙色： Mae Jemison 梅 · 詹米森 第一位非裔女宇航员&医生&企业家 3.

左中紫色： Jane Cooke Wright 简 · 库克 · 赖特 化疗之母 4. 右中蓝绿： Rachel Carson 雷切尔 · 卡森 寂静的春天作者 5. 左下蓝色： 吴健雄 实验物理学家 6. 右下绿色： Marie Curie 玛丽居里 (大概不需要我介绍)

Wonderful illustration makes this book read easily for children.

书评

英语原名: women in science: 50 fearless pioneers who changed the world. 中文译名:

无所畏惧-影响世界历史的50位女科学家

首先, ”fearless” 作为名词限定成分被翻译成四字成语”无所畏惧” , 前置做独立成分, 这样更加突出人物性格和书籍主旨。然后, ”changed the world...”
