Already the most impeccably accurate, up-to-the-minute and research-based text on the market, this new edition now gives the reader plenty of classroom context and practical instructional guidance. It includes the latest information on the characteristics of persons with learning disabilities, the causes of learning disabilities, and the most reliable educational interventions for students with LD. Students will enjoy reading this clearly written, well-organized text, which strikes a perfect balance between foundational information and practical tools that educators can readily use with students. As in previous editions, the most important research and trends in the field are emphasized continually. The Third Edition has been reorganized to include new chapters on eligibility, ADHD, and inclusive practices.
