For William Ayers, noted educator and activist, "the allure of teaching, that ineffable magic drawing me back to the classroom again and again, issues from an ideal that lies directly at its heart: Teaching, at its best, is an enterprise that helps human beings reach the full measure of their humanity."

In *Teaching Toward Freedom*, Ayers illuminates the hope as well as the conflict that characterize the entire project of education: how it can be used in authoritarian and dehumanizing ways in the service of the state, the church, or a restrictive existing social order—an idea he abhors—or, as he envisions it, as an undertaking to help students become more fully human, more engaged, more participatory, more free. Drawing on his own classroom experiences and those of his many colleagues, as well as on popular culture, film, poetry, and novels, Ayers redraws the lines concerning how we teach and why, and the surprising things we uncover when we allow students to become visible, vocal authors of their own texts and creators of their own lives.

"Committed and aware teachers," Ayers argues, "must endeavor to accomplish two crucial tasks. One is to convince students . . . that there is no such thing as receiving an education as a passive receptor or an inert vessel—in that direction lies nothing but

subservience, indoctrination, and worse. All real education is and must always be self-education. The second task is to demonstrate to students . . . that they are valued, that their humanity is honored, and that their growth, enlightenment, and liberation are the paramount concern. We take the side of the student. . . ." This lucid and inspiring book will help teachers at every level to realize that ideal.--From the Hardcover edition.

看了前两篇，不怎么喜欢。都是些大而无当的宏大叙事，教育要迎向自由，抵抗压迫之类的陈词滥调。
