著者:Burnley, Beverly

出版者:John Wiley & Sons Inc

出版时间:2004-12

装帧:Pap

isbn:9780471651987

Featuring more than 100 step-by-step activities that use common computer programs, such as Microsoft® Word and Paint®, to model concepts in five basic areas, this revolutionary guide shows math teachers how to combine math and technology

education to support national math standards and increase students' computer proficiency. Sections include Numbers and Operations, Measurement, Algebra, Geometry, and Data Analysis and Probability.
