When you start to yawn...and yawn...do you sometimes wish you could curl up like a kitten in a basket, or a bird in a downy nest? Could you sleep standing up like a giraffe, or hanging upside-down like a bat? Little ones will love snuggling up with this soothing

bedtime story and imagining how it would feel to sleep like their favorite animals-in the comfort of their own beds.

"Warm and comforting.... A nice addition to bedtime story collections." - School Library Journal
