For ages 4-8. It's hard to be the older sister when your baby brother throws oatmeal at you, wakes you up before daylight, and pulls your hair! But Mother explains why Baby does these things: Baby loves his big sister so much! When big sister can't locate her baby brother anywhere, however, she is surprised by her feelings. This delightful and humorous story by Eileen Spinelli is one that every big sister or big brother will understand. The enclosed growth chart with its stickers will allow big sisters or brothers to compare themselves with their own baby sibling as they both grow.

Includes a growth Chart and Stickers.
