

To the White Sea

[To the White Sea_下载链接1_](#)

著者:James Dickey

出版者:Delta

出版时间:1994-9-1

装帧:Paperback

isbn:9780385313094

His bomber hit by anti-aircraft fire, an American gunner must parachute into Tokyo days before the great firebomb raid on that city. Fortunately, this recorded version of Dickey's macho story of survival against the odds is abridged, making the hero more believable and the tale more mesmerizing. The book, unfortunately, contains too many instances of poetic flights of fancy and philosophical baggage for a blood-and-guts action story wherein the hero commits a large number of murders, both necessary and gratuitous. The main focus here is how to escape and how to become invisible in a nation where you are the outsider. Dickey's solution is highly imaginative and entertaining. This production, well narrated by Dick Hill, will appeal to those who love war and adventure stories. Recommended for large popular collections.

- James Dudley, Copiague, N.Y.

评论

死人不少，但是一点都不血腥，反而颇多诗意——城市、原野、雪地，伪装；星空、黑暗，向北方、去白海。
