This is a comprehensive, easy-to-use text contains more than 300 science activities for the classroom. The text's focus on the inquiry approach places value on the student's thinking and doing science. Of the inquiry activities contains combined discussions of methods and content. The text helps students overcome science anxiety and shows

them how easy it is to teach science using a simple, consistent three-step approach to each of the science activities (set induction, investigation, and resolution). All activities use simple, easy-to-find materials. Over 250 pieces of line art clearly illustrate the teaching activities.
