This volume demonstrates that mixed utterances in young bilinguals can be analyzed in the same way as adult code-switching. It provides new insights not only in the field of code-switching and of language mixing in young bilinguals, but also in issues concerning general questions on linguistic theory which are difficult to be answered with monolingual data.

From the reviews: “Both empirically and theoretically, Katja F. Cantone’s ambitious study on language mixing in young German-Italian bilinguals is a promising The book’s introduction and eight substantive chapters develop the intriguing premise that young bilinguals’ mixed utterances are not due to developmental factors and ... should be analyzed no differently from adult code-switching. ...
