With the ever-increasing popularity of the World Wide Web, more and more individuals are creating their first Web sites. Many more would like to, but are either unaware of how to get started, or feel that they do not possess the computer expertise required to accomplish such a feat. The purpose of this book is to show these individuals that creating a Web site is, (a) Easy, and (b) Fun. The second edition of this book provides three new types of websites: Blogging, Image Sharing and Creating an Ebay Storefront. Specifically, this book examines creating five different types of Web sites: Family Web Sites; Hobby Web Sites; Ebay Store; Creating a Blog; and Image sharing.
