Case Studies in School Counseling brings the work of the school counselor alive both for seasoned practitioners and graduate students. The authors have selected case studies for this book that provide a wide sampling, as well as including developmental cases that address the needs of whole grade levels of students. The organization of the

cases provides the reader with a sense of the contributors' environment, the intent of the activity or intervention, and a sequential process for implementing the activity. This book is a valuable resource to school counselors who are seeking to enhance their program expertise with innovative approaches to facilitate student growth and development.
