The grids used in today's addictive Sudoku number puzzles are a perfect match for making quilts. But instead of numbers, you can place colors and fabrics in an array of brain-teasing designs! Choose from four winning patterns with a game-like goal - each

row and column of blocks, and each three - by - three square, should contain a different fabric, color, or motif. Base designs on nine color families, nine block styles, nine block centers, or nine fabric motifs. Mix and match different sashing treatments for one-of-a-kind designs - just like Sudoku, the possibilities are mind-boggling.
