Web-based learning involves the use of appropriate technology with the corresponding pedagogical approaches managed in the context of today's educational setting. This book features an interesting range of leading-edge works from researchers and practitioners who have applied current web technology to various learning endeavors. The volume contains a selection of peer-reviewed papers by many of the field's expert researchers and practitioners. It is an excellent resource for students, researchers and practitioners involved in web-based learning or e-learning.
