出版时间:1999-05-26

装帧:Paperback

isbn:9780735605589

Create professional-quality applications, components, and user interfaces faster and more efficiently than ever with the powerful object-oriented programming capabilities in the Visual Basic 6.0 development system. From Windows(R) common controls to data access, Internet, and ActiveX(R) programming, this book covers core development

topics for version 6.0--providing insightful explanations and expertly rendered examples for rapid acceleration of your Win32(R) productivity. Expedite development with the object-oriented capabilities in Visual Basic 6.0--including events, polymorphism, and object hierarchies. Develop great user interfaces that use the full range of controls in Visual Basic and take advantage of OLE drag and drop, data-driven forms, and advanced Windows API techniques. Build datacentric solutions using ActiveX Data Objects (ADO) 2.0 and 2.1, the DataEnvironment designer, and RDS components for remote activation over the Internet Master ActiveX technology to create controls, learning advanced techniques such as COM callbacks, multithreaded components and applications, and windowless ActiveX controls. Deploy rich, Web-ready components and applications with Dynamic HTML (DHTML) and Microsoft Internet Information Server. An electronic version of this book is available on the companion CD. A Note Regarding the CD or DVD The print version of this book ships with a CD or DVD. For those customers purchasing one of the digital formats in which this book is available, we are pleased to offer the CD/DVD content as a free download via O'Reilly Media's Digital Distribution services. To download this content, please visit O'Reilly's web site, search for the title of this book to find its catalog page, and click on the link below the cover image (Examples, Companion Content, or Practice Files). Note that while we provide as much of the media content as we are able via free download, we are sometimes limited by licensing restrictions. Please direct any questions or concerns to booktech@oreilly.com.
