In Volume 2 of the Everyday Science series, every kid is talking about a science tournament in Dreamland, the biggest amusement park in town. Four friends, Daniel,

Lucy, Christine, and Sam, hope to win first prize. They soon discover that the tournament questions are linked to the park's roller coasters Young readers can learn along with Daniel, Lucy, Christine, and Sam as they investigate Newton's Laws of Motion, acceleration, action and reaction, zero gravity, and much more. Colorful illustrations, simple text, and a lively storyline make complex subjects understandable and fun as readers follow this adventure in learning.
