著者:Harvey, Bev

出版者:Facts on File

出版时间:2004-1

装帧:LIB

isbn:9780791075456

The ANIMAL FAMILIES series introduces readers to members within a variety of scientific family groups. Each book offers examples of body features and habits that the animals share, as well as unique characteristics that set them apart. Readers will learn about the animals' size, location, habitat, and distinguishing features. How do a zebra's act as camouflage? Explore interesting information on your favorite equines, from the common horse to the rare and endangered onager.
