Biography From Ancient Civilizations is the perfect class-room supplement for upper elementary through middle school grades where ancient civilizations are part of the social studies curriculum. Each book gives a complete overview of the person's life along with a snapshot of the times in which he/she lived. Told like a novel, each book is fast-moving and filled with information. Biography From Ancient Civilizations is great for the not-so-enthusiastic reader who needs research and report materials. This series fills a gap in library collections between books written for the elementary reader and those written for the avid middle school reader. All books - 2005, 2006, 2007, and 2008.
