From New Hampshire's formidable Mount Washington to San Francisco's spectacular Golden Gate Bridge, the scenic treasures of the United States are brilliantly captured in this artistic tour de force. Award-winning poet Diane Seibert's inventive poems are perfectly paired with Caldecott Honorrecipient Stephen Johnson's compelling imagery. Each turn of the page offers a surprise whether it's an impressionistic painting of Niagara Falls, a wild collage of Las Vegas, or an evocative tallgrass prairie landscape. Additional facts about each site and a list of art media are provided, making this distinguished volume a gem for the study of literature, art, history, or geography.
